

Principal's Message

Govt. Queen Mary Graduate College, established on December 10, 1908, has been serving the cause of educating our youth for more than a hundred years. This prestigious institution has played an important role in developing its female students to have bright career prospects in society.

Govt. Queen Mary Graduate College has always focused on merit, honour, dignity, honesty, simplicity, and hard work as its core values, the college has taken leaps in educating its students to be not just functional members in society, but also thought leaders and change makers. The college has been a platform for empowerment for its female student population, it has aided them in their career successes, and has enabled them to change cultures of organizations that they become a part of after they graduate. The college has initiated a multitude of academic programs along with sports and other extracurricular activities not only to encourage enrolment for in-demand fields but also to provide a wholesome and healthy environment for the students.

As the current principal of Govt. Queen Mary Graduate College, I would encourage our students to make full use of the facilities made available to them which includes our brilliant faculty. As an institution we believe in equitable importance of both science and arts, the college provides a brilliant platform for both these fields of study.

Prof. Dr. Samra Imran

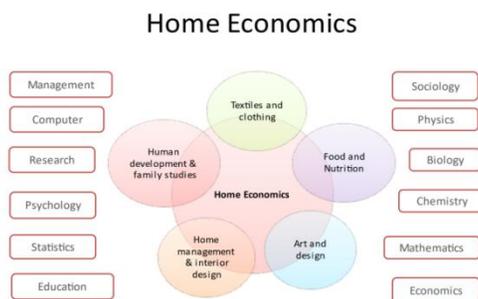

Principal

Vision of Home Economics

Home Economics is a field of study and a profession that draws from a range of disciplines to achieve optimal and sustainable living for individuals, families, and communities. The central focus of Home Economics education is the well-being of people. It is about becoming independent, connecting with others, and acting towards preferred futures that support individual and family well-being. Through Home Economics education, students become empowered, active, and informed members of society.

Intermediate and BS programs in Home Economics are directly congruent with the policies at the Government level. It provides a holistic, skill-based education which extends beyond home as the graduates of Home Economists are also involved in assisting families and communities with matters pertaining to child care, nutrition, family values, health services, and gerontology. Home Economists can also work as entrepreneurs, thereby generating employment opportunities for others as well.

The majors offered in Bachelors of Home Economics include Food and Nutrition, Textiles and Clothing, Art and Design, Interior and Environmental Design, Human Development and Family Studies.
